

King County DNRP Water Quality Index

STATION **A620** WATER YEAR **2014**

GAUGE # 63C Idylwood Creek

Overall Index 64

King County samples water quality in Idylwood Creek at station A620 at the footbridge in Idylwood Park. Sampling began 1995 and was discontinued in 2008 when budget cutbacks reduced the breadth of King County's water quality monitoring program. Sampling was resumed in February 2013. The creek originates in the City of Bellevue and flows through the City of Redmond before draining into Lake Sammamish 50 feet north of the swimming beach area in Idylwood Park. The creek is on the 2012 Washington Department of Ecology's 303(d) list of impaired streams for violation of dissolved oxygen and fecal coliform bacteria standards.

Annual Water Quality Index Scores

Water quality was MODERATE based on data collected 10/1/2013 to 9/30/2014.

Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep
90	93	96	92	96	63	96	83	78	70	60	82

WQI Score Comparison By Water Year

About The Water Quality Index:

The Water Quality Index (WQI) score is a unit-less number ranging from 10 to 100: the higher the number, the higher the water quality. Scores are calculated from data collected during the monthly routine sampling. For temperature, pH, fecal coliform bacteria, turbidity, and dissolved oxygen, the index expresses results relative to levels required to maintain beneficial uses according to criteria in Washington's Water Quality Standards, WAC 173-201A. For nutrient and sediment measures where there are no standard, results are expressed relative to guidelines for this eco-region. Results from the eight parameters are aggregated over time to produce a single score for each sample station. In general, stations scoring 80 and above did not fail water quality standards or guidelines and are of "low concern", scores 40 to 80 indicate "moderate concern", and water quality at stations with scores below 40 are of "high concern". For more information about the WQI please visit <http://green.kingcounty.gov/WLR/Waterres/StreamsData/WQI.aspx>
